The 'Product is a multipack?' field is set to 'Yes'.

Guide: Updating Net contents on GS1.

Please update as per the example below

There should be two Net Content records in the GS1 NPC.

- The first should be the total number of sheets in the pack using code XST - Sheet (number of sheets per roll x number of rolls in pack)
- The second should be the number of rolls in the pack

The screenshot shows the 'Net Content' table with two records:

Net Content — No.: 1 / 999		
Net Content	1080	(XST) - Sheet
Net Content — No.: 2 / 999		
Net Content	6	(EA) - Each
